13 and 14-Years: Year 1, LESSON 3 - LOOK AROUND YOU

The students were interested because they all know what the world is saying.

When they look at the people and the world around them, they get confused by the different messages about manhood, womanhood, sexuality, and marriage.

After I taught them the truth, they acknowledged that the different messages that they get from the world around them are not the truth and they can only find the truth in the word of God, the Bible

In my family, my older girl cousins show me that a woman just lives for today and has fun. Parties with guys and let's life happen. Other people boyfriends and family members pay for the all the nice things you want.

If I look at the men around the car wash, a man is someone with a car, a lot of girls and money, latest phones, swears a lot, drinks alcohol, knows all the sexy dance moves and talks about girls and sex.
