

12 -Year olds

The lessons were amazing and mind-opening for the 12-year old group as they related their life background and families to the life of Jesus. I think the back stories of Gloria and Joel were incredible for them, to learn about responsibility.

They may seem like just stories, but they realised that it always points to their design from the beginning.

It is very important for the students to know that they are not too young to learn God's Word by themselves. They are capable and able to decide for themselves to follow Jesus wholeheartedly, without it being anyone else's responsibility. (Like a pastor, teacher, caregiver or their parents/guardians.)

Also, the fact that there is no one in their families who is a follower of Jesus, shouldn't be a hindrance for them. Rather they can decide to be different, a light to their family; a CycleBreaker.

The children were serious and genuine as they signed and made a declaration to follow Jesus. We keep these young people daily in our prayers.
